(as you can see, i now remember to date things)

Dear Lil & Harold

Thought you might have a laugh at the attached by Marty Waldron in today's NYTimes. It looks like they have decided that ridicule is the best weapon to preserve the NYTimes edition of the Warren Report and its introductions by Harrison Salisbury, Scotty Reston, Tom Wicker and Anthony Lewis.

I don't know what to make of Schweiker yet, but it looks like the NYTimes is saying "buck us and you will be put down with the Flying Saucer loonies every time."

I hope this finds you in good spirits and health besides, although I know the two sometimes are tough to assemble during convalescence.

regards

bob Regan

PS -- Harold/Lil as per your letter last seek, I see you type betterk (see?) than I dox.
